

Dear Members of the Massey Community and Friends,

We are calling on you to nominate new Senior Members (Senior Fellows and Quadrangle Society Members) for Massey College. If you know someone who would enrich the College, please submit a nomination.

Senior Fellows are typically academics; Quadrangle Society Members typically work in applied fields outside the academy. The selection committee applies the same criteria and standards of excellence, below, to all applicants. Each nominee requires a nomination letter and a second letter of recommendation. Anyone from the Massey community (Junior Fellow, Senior Fellow, Senior resident, Member of the Quadrangle Society, Alumni) can nominate or write a recommendation letter.

In keeping with Massey's founding values and strategic plan, we seek Senior Members who fulfil the following criteria:

- **strive to advance the public good - locally, nationally, and internationally;**
- **have demonstrated excellence in their field, whether in the academy or in an applied setting;**
- **have strength of character, builds capacity within and bridges between people and who naturally lifts others up; and**
- **are interested in the life of the college, especially in engaging with graduate students.**

We are committed to diversity and encourage nominations of racialized persons/persons of colour, women, Indigenous People, persons with disabilities, LGTQ+ persons, and others who may contribute to the further diversification of ideas. We are also committed to ensuring the senior membership of the College includes representatives across the disciplines, in keeping with Massey's interdisciplinary mandate.

This year, we especially seek members from disciplines currently under-represented at Massey, such as dentistry, theatre, business and management, fields that are poised to make important contributions to knowledge and are the focus of Junior Fellows' studies and interests, such as Artificial Intelligence, Climate Change and Social Justice and Equality and those able to make international connections.

All nomination and recommendations letters must be submitted to nominations@masseycollege.ca by **15 December 2022**.

Selection process

1. All nominated individuals will be systematically considered by a Selection Committee comprised of members of the College: a diverse group chosen from College officials, Junior and Senior Fellows, Quadrangle Society Members and Alumni. The Selection Committee will propose a slate of candidates.
2. The persons on the proposed slate will be contacted to ask whether they wish their name to stand.
3. All those on the proposed slate who wish their names to stand will then be considered by the Governing Board.
4. Successful candidates will be appointed as Senior Fellows and Quadrangle Society Members, with an initial, three-year term beginning 1 September 2023. Appointments will be renewable thereafter.

We look forward to receiving your nominations.

Nathalie Des Rosiers

Principal

David Smith and David Robertson
